EXPERIENCE

The Walt Disney Company
May - July 2018
UX Design & Front-End Dev Intern | *Burbank, CA*

Designed and implemented an interactive style guide for Disney's Software Solutions team to increase efficiency for designers and developers. Touched many aspects of the product life-cycle from user research & designing iterations to developing an interactive prototype.

UT Center for Integrated Design
Jan 2018 - present
Research & Design Intern | *Austin, TX*

Responsible for research, branding, marketing and event planning for the School of Design and Creative Technologies. Strategizes marketing efforts to reach more students and promote integrated design at UT.

USAA Design
Jan - May 2018
AI Experience Design Student (partnership with UT) | *Austin, TX*

Collaborated with multiple diverse teams through 3 major design sprints, exploring the use of Machine Learning and Artificial Intelligence. Conducted interviews of USAA members to design a usable AI/ML enabled experience for our stakeholders, the USAA design team.

Good Citizen Network
Mar - June 2018
Lead UX / UI Designer | *Austin, TX*

Lead the design front for a team of engineers to design and develop an iOS and web product for the company's MVP that launched June 2018. Introduced design thinking methodology to the team and created wireframes and high-fidelity mock-ups for the development team.

IBM Design
Aug - Dec 2017
UX Design Student (partnership with UT) | *Austin, TX*

Designed an efficient IoT solution to reduce cost for companies in the industrial laundry machine industry using IBM's Design Thinking methodology. Presented our iterative design journey and final prototype to IBM executives and designers.

ESPN Technology
June - Aug 2017
Front-End Developer Intern | *Bristol, CT*

Developed a re-design of ESPN's WatchESPN app for mobile and tablet view with React Native and incorporated it into the existing ESPN application.
